1.0 SCOPE OF WORK

1.1 PURPOSE: The City of Joplin desires to enter into an exclusive franchise agreement with a qualified firm to provide solid waste collection and disposal and curbside recycling services to all single family residential dwellings within its current and future corporate limits.

1.2 BACKGROUND: The City has an existing residential solid waste curbside collection agreement that is scheduled to terminate on March 31, 2016. The City desires to offer its citizens a continuation of existing collection and disposal services (or a modification thereto) plus additional services that are not contained within the existing agreement. A summary of existing service is as follows:

Current Services:

All residential waste is collected once/week and is disposed of at licensed disposal facilities. It is a co-mingled waste stream, inclusive of all residential waste (as defined herein).

The City currently provides all billing and collection services related to solid waste collection. Under the current contract, the Company is paid only what is collected from the customers. The Company absorbs any "bad debt" that is unable to be collected. The billing is a part of the monthly sanitary sewer billing program.

The current number of Residential Units serviced in the City is approximately 17,000. The City does not assure the accuracy of the number of Residential Units and the successful Proponent is encouraged to evaluate with their own methodologies.

The City currently subsidizes the disposal of bulky trash and yard waste that is delivered directly to a local transfer station by the residents of the City. The City intends to continue this service by way of a separate contract with one or more transfer stations.

The City provides a fall leaf collection service with city forces. This is typically a 45 to 60 day program that allows the community to consolidate all leaves to the curb where City forces will collect and dispose of the yard waste that is collected.

The City currently provides periodic access to city owned property for residents to bring tree and limb debris from localized wind and ice storms.

All waste from City owned facilities is collected through a separate contract; and all office/mixed paper/cardboard from city facilities is collected by another separate agreement.

The City currently operates a recycling drop-off center for patrons wishing to utilize the facility. The facility will accept:

- Cans, aluminum and tin/steel, all metal and bi-metals
- Plastics, #1 & #2 containers with necks
- Corrugated Cardboard and Paperboard
- Newspapers (with inserts)
- Magazines, Catalogs, Telephone Directories, Books, Junk Mail & Office Paper
- Glass bottles, jugs & jars (lids removed)

- Clean Packing Peanuts, Bubble Wrap
- Cooking Oil (Fats, Oils and Grease (FOG))
- Electronic Waste (computers, televisions, etc)
- All Batteries
- Household Hazardous Chemicals

New and/or Modified Services (General Overview):

At a minimum, the City desires to continue to provide a similar to equal level of service to the residential customers and provide all residential units the option of having curbside recycling. Curbside recycling service shall be made available to all residential units, but it will be at the option of the customer as to whether they will utilize that service. The City also desires to have the successful Proponent extend curbside recycling services to non-residential customers if requested by the non-residential customer.

The City intends to continue providing the subsidy for delivery of bulky trash and yard waste to the local transfer station.

All non-residential users may seek to contract with the successful Proponent for curbside waste collection and curbside recycling services independent of this agreement, but they are not required to do so. Curbside collection for non-residential users may only be done under separate contract between the customer and a third party contractor and shall not be considered as a part of the City’s Contract. The successful Proponent is permitted to compete with other vendors to provide solid waste collection services to all non-residential users.

The City will be including the collection of all solid waste from city facilities as a part of any agreement resulting from this RFP, in lieu of a separate and independent contract as is currently in place. In addition, the City desires to have the successful Proponent provide appropriate recycling services for City Facilities. The City will pay the successful Proponent for the services provided in accordance to the schedule of fees and expenses itemized in the Proposal and in accordance with the terms and conditions of payment included in the agreement.

1.3 REQUIREMENTS: The minimum level of service to be provided shall be:

1. Once-per-week collection and disposal of all residential solid waste

All costs for all containers/carts shall be included in the monthly fee quoted by the Proponent in the Schedule of Fees and Expenses.
4. Valet service to those residential units in which ALL occupants of the residence have physical impairments due to age or disability that would prohibit them from being able to place and remove their waste and/or recycling container(s)/cart(s) from the curbside or adjacent alley. The successful Proponent shall make arrangements with these residential units to accommodate the collection and return of their waste and/or recycling container(s)/cart(s), to include collecting said waste and/or recyclables at the door of the residence, in lieu of requiring them to place their container(s)/cart(s) at curbside or in the adjacent alley. The successful Proponent may require verification of the physical impairment and in no case shall the successful Proponent be required to go inside any residence to complete the collection of the solid waste and/or recyclables. If there is a dispute as to whether a resident qualifies as physically impaired due to age or disability, the successful Proponent may require verification of the physical impairment from a medical professional. 5.a The successful Proponent shall provide containers and collect all recyclables from the City Facility locations listed in Appendix A at the frequency listed. As City programs and operations change, the location and frequency of all collections of recyclables may change accordingly.

6. Roll-off containers on an on-call basis to the City: Quotes provided on the Proposal form will be inclusive of all drop off and pick-up services; disposal fees, if any, shall be billed to the City as a separate invoice provided a copy of the disposal tipping fee receipt is attached, and shall be void of all other fees such as billing fee, environmental fee, fuel recovery fee, etc.. The cost of these additional containers shall be paid by the City in accordance with the terms of the contract.

7. Hours of Operation - Collection of Residential Solid Waste or curbside collection of recyclables shall not begin before 6:00 a.m. or continue after 7:00 p.m. on the same day. Exceptions to collection hours shall be affected only upon the mutual agreement of the City and the successful Proponent. Proponents are advised that the City considers this operational requirement to be extremely important and that compliance will be strictly enforced.

8. Collection Routes and Schedules - Collection Routes and Schedules shall be established by the selected Proponent. The successful Proponent shall submit a map designating the collection routes, specifically identifying starting and ending points, and the estimated Collection Schedule to the City for its approval, which approval shall not be unreasonably withheld. Proponent shall maintain a toll-free telephone line staffed by trained personnel between the hours of 8:00 a.m. to 5:00 p.m. Monday through Friday, except holidays as specified in this Agreement, and have a supervisor with authority to handle problems or

complaints as they may arise. During non-business hours, the telephone may be maintained by an answering machine or answering service.

Whenever the City or a resident notifies the successful Proponent of a location that has not received scheduled service, the successful Proponent is required to serve the location no later than the following working day from the time of the complaint. If the successful Proponent is unable to resolve the issue the resident should be informed to call the Public Works Director, or designee thereto.
