Comments from City Council:

Mr. Stanley asked for a report on current sidewalk projects, including funding sources for the projects, to be made available to the city council soon.

Mr. Stanley asked City Manager Anselm for an update on the competitive pay study for public safety employees. Mr. Anselm stated after discussions with the Police Chief and Fire Chief, it was agreed to move forward with pursuing the 50% pay range increase. The financial impact of this decision is \$246,000 for the Police Dept. and \$115,300 for the Fire Dept. Mr. Anselm stated the most appropriate source for the increases is the Public Safety Sales Tax fund. He said he could have information in the form of a council bill to consider at the next council meeting.

Next steps if approved by Council are:

1. Amend the step plan to reflect the ranges as presented to the Council
2. Update the payroll system with the new ranges and steps
3. Place employees into their new steps.

Sam briefly discussed the summary of changes that will be reflected in the adopted budget that is to be presented to the City Council in October. He mentioned the creation of a separate public safety sales tax fund that more clearly differentiates our 1% sales tax that goes towards the General Fund, compared to the ½ cent sales tax dedicated for public safety. This was discussed during the first budget work session, but it will add clarity and transparency to our budgets in the future.

Mr. Stinnett asked if the projections on the public safety taxes been completed by the Finance Director. Mr. Anselm said Leslie is working on it and should have it completed before the next council meeting.

Mr. Stanley made a motion to charge the city manager to bring a council bill to the next meeting that includes the pay increases he just proposed. Mr. West seconded the motion. Voting in favor were Council Members: Brown, Colbert-Kean, Lawson, Monteleone, Reid Adams, Shaw, Stanley, Stinnett, and West, 9. Nays: 0

Mr. Stinnett asked to have boards/commissions appointments on the next informal council meeting to try to find a replacement for the vacancy on the Capital Improvement and Public Safety Sales Tax Oversight Committee.

Mrs. Reid Adams commented on the recent tragedy regarding the hit and run accident that killed

an 8-year-old girl in our community. She stated she met with a group of Sunnyvale residents that are concerned with speeders on 36th Street. The Police Department did a speed study which revealed excessive speeding in that area. Mrs. Reid Adams stated some Sunnyvale residents have offered to pay for speed tables to try to deter speeding and avoid another tragedy.

Mr. Brown commented on the police and fire pay. He serves as liaison to the Finance Oversight Committee and he stated the committee is researching viable revenue streams to fund an additional 30% increase for all employees, not just police and fire employees. But hopefully, we can get the police & fire to the 80% level through this revenue stream that we find. The committee will be meeting again in a couple of weeks to discuss and finalize a list of revenue options that have been proposed and a report of the findings will be given to the council at a future council meeting.

Mayor Shaw clarified an earlier statement about meeting with a fireman. He assured everyone that the meeting was about a community project both are working on.

There being no further business, the meeting was adjourned at 8:14 p.m.

Respectfully,

Barbara Gollhofer, City Clerk
