I. UNMET NEEDS

On May 22, 2011 the City of Joplin was struck with a massive EF-5 multiple-vortex tornado that impacted one-third of the community, with physical losses exceeding $3 billion and resulting in 161 deaths. Since the disaster, the community’s residents have demonstrated the dedication to recover and rebuild. The CDBG-DR program provides communities with resources to address a wide range of post-disaster community development needs, and the City of Joplin has outlined in this Action Plan Amendment how the community will use its second allocation to support recovery from this event.

The following needs assessment and proposed allocation is based on the best currently available data and may be adjusted during a future amendment to the Action Plan.

HOUSING IMPACT AND UNMET NEEDS

The majority of the property in Joplin that was affected by the May 22, 2011 tornado was residential property that contained a variety of single and multi-family units as well as owner and renter-occupied dwellings. Residents of all demographics and income statuses were affected by the tornado because the tornado touched down on the west-side of the City, and indiscriminately tore through neighborhoods.

Joplin Homebuyers Assistance Program (J-HAP)

The estimates of affected residential dwellings, which would include everything from 1 apartment unit to a single family residence, showed that a total of 7,500 units received some level of damage from this disaster. The dwellings that were deemed uninhabitable were estimated to displace approximately 9,200 residents from the City of Joplin. Although a large portion of displaced residents were able to find homes, this program specifically aims to provide direct homeownership assistance to approximately 400 households.

Due to the success of this program, the City has been able to provide assistance on over 300 affordable homes within the tornado affected area. The program has helped the City stabilize and minimize population loss, encourage population growth and provide financial incentives to low and moderate income families that live within the tornado impacted area.

The additional funds added to this program will provide direct home-ownership opportunities to approximately 220 additional households.

INFRASTRUCTURE IMPACT AND UNMET NEEDS

In furthering the effort to ensure that the tornado-affected area is as attractive as possible to returning and new residents, projects will be developed to ensure that all residents will have the benefit of infrastructure that will enhance their quality of life and protect property. These projects will include repairs necessary due to direct storm damage, repairs due to damage from recovery efforts, and projects designed to further enhance systems to attract residents to repopulate the area.

Within this specific Amendment, no discrete Infrastructure activities are planned. However, the
City continues to investigate potential activities, which may be included in future Amendments, to support the rebuilding of the community. Ongoing Infrastructure activities are detailed within existing Action Plan amendments previously prepared and submitted.

**ECONOMIC IMPACT AND UNMET NEEDS**

The path of the May 22, 2011 tornado also crossed several commercial corridors in the City of Joplin which had a large effect on the local economy. There were 553 businesses destroyed or severely damaged during the tornado, and approximately 90 percent, or 500 businesses, are back in operation. Thirty businesses have indicated that they will not rebuild/reopen.

**Crossroads Industrial Park (Phase 1)**

The City of Joplin has a population of over 50,000 and a daytime population of more than 240,000, which highlights the fact that Joplin is an economic/workforce magnet for surrounding communities. The Crossroads Industrial Park is one of Joplin’s newest industrial parks which will support the manufacturing, transportation and distribution industries. The current tenants of the Industrial park include Allgeier Martin Associates, a Coca-Cola distribution facility, Turbo Supply and a JIDA spec building.

The Crossroads Industrial Park Phase I Project will provide improved access to two business entities (Eagle Picher and John Schaumburg) located within the industrial park. The improved infrastructure will facilitate business, commercial and economic growth within the City of Joplin.

**CONNECTION BETWEEN UNMET NEEDS AND ALLOCATION**

The three categories of Housing, Infrastructure, and Economic Need were individually discussed at the beginning of this document. The City has evaluated the needs in these three categories and determined the greatest amount of need to be in the public infrastructure category. The City does strongly believe, however, that if the recovery of one of these sectors occurred in an isolated way, the community would not have a healthy, sustainable recovery.

Although the City has identified the activities above, it is anticipated that future projects will be identified and included in future Amendments that will assist in providing housing, infrastructure, and economic development resources to the residents that will encourage a repopulation of the tornado area. The City is focused on efficiently and effectively providing as much funding as possible to make this portion of the community an area that will attract residents now and in the future.
II. PLANNING EFFORTS

LAND USE PLANS FOR MITIGATION

Land use plans and decisions cannot be made to mitigate risk of future tornado damage due to their lack of causation based on geographic location. Where a flood can generally be tied to a floodplain or at least proximity to a water source, tornadoes may strike any location. Following the May 22nd tornado, Joplin does realize the need to use this opportunity to re-evaluate land uses that occur in other hazard prone areas such as flood plains. Joplin has taken steps in the form of educating the public and working with other public entities, and has even started the process for application of Hazard Mitigation Grant Program funds to purchase property and ensure a more suitable land use is achieved.

During the Citizens Advisory Recovery Team (CART) process, a large outcome of these public participation forums was the desire for trails and green-spaces. These forums became a great tool to educate the public with the concept that placement of green-spaces and potential trails were ideal for floodplain areas. The placement of floodplains in Joplin has been utilized to colocate parks in the past, and the idea of extending the system along these areas was heavily promoted both by the citizens and for the citizens during this process. For property owners that do choose to build in the floodplain, the City will continue to follow its floodplain management ordinances which meet the FEMA standards for this type of activity.

COORDINATED PLANNING

Joplin had the advantage of being offered assistance through FEMA’s Emergency Support Function 14, Long Term Community Recovery. In Joplin, this process culminated in the form of the Citizens Advisory Recovery Team (CART). This was a volunteer advisory board composed of local leaders from all sectors of the community. The importance of the CART was that it was a citizen-driven process that resulted in a list of recovery projects that was presented to the appropriate governmental/elected boards.

All of the projects that are included in this Action Plan are taken directly from either the CART Next Steps plan or are a derivation of projects suggested in that plan. These recommended projects were the result of numerous Town Hall meetings, public-comment booths at community events, and a CART website using virtual town-hall technology, and the numerous sub-committee meetings of citizen volunteers with passion in the areas of: Economic Development, Schools and Public Facilities, Housing and Neighborhoods, and Infrastructure and Environment.

The CART Next Steps plan has been continuously implemented through many different avenues. One of the most important local and regional planning efforts that built on the success of the CART plan is Joplin’s Comprehensive Plan. The City of Joplin was due for a Comprehensive Plan update shortly after the May 22nd tornado, and the CART process was used as a springboard to ensure that the City’s new comprehensive plan effectively leveraged opportunities presented by the tragedy as well as respecting efforts of the citizens that were put forth in the CART plan.

City staff attempted to incorporate as many goals of the CART plan into the Comprehensive Plan as possible. The two documents, although separate, are completely complimentary and
coordinated. The projects presented in this Action Plan were born in the CART process and further refined in the Comprehensive Planning process. This process included additional citizen participation with general public meetings, sessions with the Planning & Zoning Commission, and sessions with the Joplin City Council.

The City updated its Comprehensive Plan in 2012 which took into consideration the CART recommendations as well as many other post-recovery efforts. The 2012 Comprehensive Plan will be used to guide development in the City for future years as there is a strong coordination between this CDBG-DR Action Plan and the 2012 Comprehensive Plan. The City is also an active member of the Joplin Area Transportation Study Organization, the Metropolitan Planning Organization (MPO) for the region, and coordination with this group has also been consistent.

**LEVERAGING OF FUNDS**

The City has made an effort to design the activities included in this plan to maximize the benefit that will be realized by Low-Moderate Income individuals. In doing this, the City identified projects that had recovery needs outside of LMI areas and has allocated other fund sources to as much of these areas as possible. In locations where projects may fall outside of LMI areas, the City has made every effort to secure other local, state, or other funding and resources that will be leveraged to complete the overall recovery in these activities.

**USE OF QUALITY CONSTRUCTION METHODS & GREEN BUILDING**

The City of Joplin currently operates under the International Building Code (IBC) of 2006 and is in the process of evaluating the update for IBC 2012. It is the normal practice of the City to update its standards every 6 years. In addition to evaluating the update for IBC 2012, the City of Joplin made a few additions to its effective code as a result of the May 22nd tornado. These measures include the mandatory use of “Hurricane Straps” used to make a stronger connection between all elements of the residential building from the foundation to the roof. The second addition was the mandatory filling of cells in the concrete block foundations at a higher frequency than previously allowed under the City’s code.

The City’s Plan does not include the construction or rehabilitation of residential buildings and the City does not anticipate adding these activities in the future. According to the current Needs Assessment, this has been addressed in the City’s previous award. Because disaster recovery is an ever-changing process, however, the City will ensure to include criteria and requirements for Green Building Standards and HUD’s Office of Community Planning & Development (CPD) Green Building Retrofit Checklist in any future residential activity according to the applicable CPD notices.

**PLANS TO MINIMIZE DISPLACEMENT**

The City will comply with the acquisition and relocation requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended, and implementing regulations at 49 FRF 24; and it has in effect and is following a residential anti-displacement and relocation assistance plan required under section 104(d) of the Housing and Community Development Act of 1974, as amended, in connection with any activity assisted with funding under the CDBG program.
III. PROGRAMATIC PROCEDURES

PROGRAM INCOME

The City of Joplin reserves the right to utilize up to 5% of Program Income received from these CDBG-DR activities as additional Administrative funds. Program Income will roll back into the project from which it is originated unless otherwise amended. Program Income is not expected from any of the activities listed in this plan.

MONITORING STANDARDS AND PROCEDURES

Non-duplication of benefits
Section 312 of the Robert T. Stafford Disaster Assistance and Emergency Relief Act (42 U.S.C. 5155), as amended, prohibits any person, business concern, or other entity from receiving financial assistance with respect to any part of a loss resulting from a major disaster as to which that person has received financial assistance under any other program or from insurance or from any other source. CDBG disaster recovery funds will not be used for activities for which funds have been received (or will be received) from FEMA; the SBA; other local, state, or federal programs; insurance; or recovery support from private charity organizations. However, CDBG funds may be used to provide assistance to the extent that a disaster recovery need has not been met by other sources. Applicants for assistance will be required to disclose all sources of assistance received or to be received on a provided certification form. This form will list FEMA, SBA, Insurance, and an “Other” category to ensure that all possible duplications are fully disclosed by the applicant.

Based on a comparison of the amount of assistance previously received and the amount of assistance requested by the applicant, the City and/or its subrecipients will determine the unmet needs before awarding assistance. The personnel responsible for this task will be the agency that is processing the applications. A statement is included in the Duplication of Benefits verifications that the applicant agrees to repay any assistance that is found to be duplicative.

Continual Quality Assurance
All recipients of CDBG-DR funding will be subject to monitoring conducted by both the City of Joplin staff and any administering agents hired by the City of Joplin. The City of Joplin plans to hire a consulting firm with extensive experience in administering CDBG-DR funds which will include a proven monitoring process bases on all applicable regulations. In the case that monitoring is needed before an external firm can be hired, the internal audit function outlined below will be applicable to any and all programs included in this Action Plan as deemed necessary by City of Joplin staff.

Internal Audit Function w/ responsible Audit staff
The City does not have an Internal Audit Function; however, the City and/or its CDBG-DR Grant Administrator will perform subrecipient monitoring in accordance with program requirements. As part of this compliance and monitoring, subrecipients will be contacted according to the terms of their subrecipient agreements, to track progress of compliance issues and ensure timeliness. On-site monitoring visits and/or at-desk monitoring of files will be conducted according to the nature
and scope of the project. These monitoring events will address Exhibits 3-1 through 3-22 of the CPD Grantee Monitoring Handbook as applicable. Topics will include Eligibility, National Objective, Rehabilitation, Economic Development, Overall Management, Financial Management, Cost Allowability, Procurement, and review of Equipment Management. Not all topics will be monitored every year, but rather, these topics will be addressed according to the risk assessed by staff. Random monitoring will occur at a minimal of an annual basis based on risk of the current activities. Forms to verify LMI participation and/or benefit are collected based on the scope of each project.

**SCHEDULE OF EVENTS** – The usual schedule of events for CDBG monitoring visits will be as follows:

1. The CDBG Program Specialist schedules the monitoring visit by phone or e-mail contact with the subrecipient.
2. The on-site monitoring visit is conducted, and consists of the following:
   a. Conference
   b. Documentation, data gathering and analysis

A letter is sent to the subrecipient regarding the monitoring visit. The letter includes information about any problems discovered or discussed during the monitoring visit, as well as information that recognize the successes of the subrecipient. If the CDBG Program staff deems necessary, requests may be made of the subrecipient to ensure compliance with all applicable rules and regulations of the program.

**PROCEDURES TO DETECT FRAUD, WASTE, AND ABUSE OF FUNDS**

All activities must be conducted in compliance with applicable CDBG rules and regulations, as well as other applicable federal regulations such as OMB Circulars A-87, A-133, and 24 CFR Part 85 (Uniform Administrative Requirements). Subrecipients who have received $500,000 or more in federal funding during the preceding year will be required to submit an audit in accordance with OMB Circular A-133.

Efforts to mitigate fraud, abuse, and mismanagement include regular monitoring of activities, as described below. The City of Joplin, or other entity as assigned by the City of Joplin, will review expenditures, while independent auditors will audit activities for program and financial compliance. The City of Joplin reserves the right to take appropriate action in instances of non-compliance, fraud, and mismanagement including, but not limited to, disallowing ineligible costs, terminating contracts/agreements, and requiring repayment of funds.

As required under the Notice, the City of Joplin, or its assigned agent, will submit quarterly reports to HUD through the Disaster Recovery Grant Reporting (DRGR) system no later than 30 days following each calendar quarter.

**INCREASING CAPACITY OF THOSE ADMINISTERING ACTIVITIES**

The majority of Administration funds available under the CDBG-DR program will be made available to the firm that is hired to administer the entire CDBG-DR program for the City of
Joplin. This organization that is chosen to administer grants is encouraged to attend trainings that will increase the efficiency with which projects are completed.

The City has reserved funding in the Administration funds for local costs. These funds have been used to create additional CDBG Manager positions to increase the local capacity and it is possible that this funding could be used to add staff if determined necessary in the future.

The City of Joplin has also received funds from the Economic Development Administration to hire a staff planner. The Disaster Planner (EDA position) will also be dedicated to providing assistance to recovery efforts which will include the projects that are funded by the CDBG-DR funds. This additional assistance to administering groups will increase the capacity of all groups involved.

**SUBSTANTIAL AMMENDMENT**

The following events will be considered substantial amendments to the Action Plan for Disaster Recovery:
- The addition or deletion of any activity described in the Plan;
- A change in the planned beneficiaries of an activity, and
- A change to the scope of the project that would result in the allocation of reallocation of more than $1,000,000.

Substantial amendments must be approved by the Joplin City Council. For substantial amendments, Joplin will post the amendment on its web-page and will be prepared to receive comments for a period of 7 days. Following the public notice period, proposed amendments will then be submitted to the HUD Kansas City Field Office for review. For minor amendments, the City of Joplin will inform the Kansas City Field Office and update projects within the Disaster Recovery Grant Reporting (DRGR) system. Finalized minor amendments will be posted on the City’s website.
IV. PROGRAM DESCRIPTIONS

JOPLIN HOMEBUYERS ASSISTANCE PROGRAM (J-HAP)

Program/Activity Details
Administrating Entity: City of Joplin
Budget: $12,750,000 $19,750,000
Geographic Area: City of Joplin: Tornado Area
Applicant Eligibility: N/A; Direct Homeownership Assistance
Start/End Dates: July 2015 – October 2016
Performance Outcomes: Additional allocation of homeownership direct assistance to LMI residents throughout the destruction area.

Basis for Allocation
This program specifically aims to provide direct homeownership assistance to approximately 620 households. As of 6/19/15 there have been 312 home closings (33% of these homes have been provided to LMI families). The subsidy may be used to fund up to 20% of down payment assistance, up to 30% for qualified LMI covering 100% of the primary lender requirements and/or 100% of the:
- Reasonable closing costs
- Acceptable loan terms are 15-30 years with loan fully amortized at the end of the loan period, and ARM’s are acceptable
- The additional $7,000,000.00 in funding will be used to further facilitate the repopulation of the tornado area by providing more affordable housing for Low-Moderate income residents

CDBG Eligibility and National Objective
This activity is eligible under 13, Direct Homeownership Assistance, and will utilize the National Objectives of both Low-Moderate Income Housing and Urgent Need. For households that will not qualify under the Low-Moderate Income National Objective, Urgent Need will be used based on the clear need for housing and all income levels.

Long-term Recovery from Specific Disaster
Due to the success of this program, the City has been able to provide over 300 affordable homes within the tornado affected area. The program has helped the City stabilize and minimize population loss, encourage population growth and provide financial incentives to low and moderate income families that live within the tornado impacted area. The additional funds added to this program will provide direct home-ownership opportunities to approximately 220 additional households.

CROSSROADS INDUSTRIAL PARK (PHASE I)

Program/Activity Details
Administrating Entity: Joplin Industrial Development Authority (JIDA)
Budget: $1,200,000
Geographic Area: City of Joplin: Crossroads Industrial Park
Applicant Eligibility: LMI/Job Creation or Retention
Performance Outcomes: Provide infrastructure improvements that would create access to proposed businesses and attract additional businesses and commercial interests. These improvements would also help to provide employment opportunities to meet the City’s population growth objectives.

Basis for Allocation
The City of Joplin has identified a number of economic development activities to support their goal to rebuild the Community following the May 2011 tornado. The City of Joplin has a strong business foundation that is comprised of a skilled labor force, easy transportation access, and reasonable operating costs. The City has a population of over 50,000 and a daytime population of more than 240,000, which highlights the fact that Joplin is an economic/workforce magnet for the surrounding communities. According to a recent study conducted by the Joplin Area Chamber of Commerce, the business sectors that will most likely expand to or be located in the Joplin area are distribution centers, administrative office operations, commercial machinery repair and custom computer programming. In support of the City of Joplin’s goal, the Joplin Industrial Development Authority (JIDA) intends to provide additional street and sanitary sewer infrastructure improvements to the Crossroads Industrial Park. The Crossroads Industrial Park is one of Joplin’s newest industrial parks which will support the manufacturing, transportation and distribution industries. The current tenants of the Industrial park include Allgeier Martin Associates, a Coca-Cola distribution facility, Turbo Supply and a JIDA spec building. The goal of the infrastructure improvements for the Crossroads Industrial Park is to build upon and improve economic prosperity in the City of Joplin.

The Crossroads Industrial Park Phase I Project will provide improved access to two business entities (Eagle Picher and John Schaumburg) located within the industrial park. The improved infrastructure will facilitate business, commercial and economic growth within the City of Joplin. The additional businesses will also provide employment opportunities to LMI individuals and thereby aid the City in meeting their population growth objectives.

CDBG Eligibility and National Objective
This Activity is eligible under 17B Infrastructure Development and will utilize the National Objective of Low-Moderate Income Limited Clientele.

Long-term Recovery from Specific Disaster
This activity will help to create a stronger economic base and provide employment for LMI individuals. Developing the needed infrastructure will improve access to businesses located in the Industrial Park.
V. PERFORMANCE SCHEDULES

VII. PUBLIC COMMENT

The City of Joplin provided prominent posting on the City’s official website beginning on July 15, 2015 indicating written comments would be accepted through July 22, 2015 at 5:00 p.m. No comments were received.

VIII. ACCESSIBILITY OF PLAN

The City of Joplin will make this plan available to all individuals including those with disabilities and those that are non-English speaking. Services will be provided upon request. Requests can be made by contacting our ADA Coordinator at 624-0820, Ext 210, or the City Clerk’s Office at 624-0820, Ext 220. Kindly give us forty-eight (48) hour notice to arrange for the aids or service. TTD Number: (417) 625-4774.

IX. CERTIFICATIONS AND SF-424

The necessary SF-424 and Certifications required for these CDBG-DR funds are attached to this document and can be found in Appendix A.
Appendix A – CERTIFICATIONS

In accordance with the applicable statutes and the regulations governing the Disaster Recovery Action Plan, the jurisdiction certifies that:

A. Affirmatively Further Fair Housing -- The jurisdiction will affirmatively further fair housing, which means it will conduct an analysis of impediments to fair housing choice within the jurisdiction, take appropriate actions to overcome the effects of any impediments identified through that analysis, and maintain records reflecting that analysis and actions in this regard. In addition, the grantee certifies that agreements with subrecipients will meet all civil rights related requirements pursuant to 24 CFR 570.503(b)(5).

B. Anti-displacement and Relocation Plan -- It will comply with the acquisition and relocation requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended, and implementing regulations at 49 CFR 24; and it has in effect and is following a residential anti-displacement and relocation assistance plan required under section 104(d) of the Housing and Community Development Act of 1974, as amended, in connection with any activity assisted with funding under the CDBG program.

C. Lobbying Certification – The Grantee certifies that its compliance with restriction on lobbying required by 24 CFR party 87, together with disclosure forms, if required by part 87.

D. State and Local Laws – The grantee certifies that the Action Plan for Disaster Recovery is authorized under State and local law (as applicable) and that the grantee, and any entity or entities designated by the grantee possess(es) the legal authority to carry out the program for which it is seeking funding, in accordance with applicable HUD regulations and this Notice.

E. Consistency with Action Plan – The grantee certifies that activities to be undertaken with funds under this notice are consistent with its Action Plan.

F. Acquisition and Relocation – The grantee certifies that it will comply with the acquisition and relocation requirements of the URA, as amended, and implementing regulations at 49 CFR part 24, except where waivers or alternative requirements are provided for in this Notice.

G. Section 3 – The grantee certifies that it will comply with section 3 of the Housing and Urban Development Act of 1968 (12 U. S. C. 1701u), and implementing regulations at 24 CFR part 135.

H. Public Participation – The grantee certifies that it is following a detailed citizen participation plan that satisfies the requirements of 24 CFR 91.105 or 91.115, as applicable (except as provided for in notices providing waivers and alternative requirements for this
I. **Use of Funds** – The grantee certifies that it is complying with each of the following criteria:

1. Funds will be used solely for necessary expenses related to disaster relief, long-term recovery, restoration of infrastructure and housing, and economic revitalization in the most impacted and distressed areas for which the President declared a major disaster in the aftermath of Hurricane Sandy, pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act of 1974 (42 U.S.C. 5121 et seq.).

2. With respect to activities expected to be assisted with CDBG disaster recovery funds, the Action Plan has been developed so as to give the maximum feasible priority to activities that will benefit low- and moderate-income families.

3. The aggregate use of CDBG disaster recovery funds shall principally benefit low- and moderate-income families in a manner that ensures that at least 50 percent of the grant amount is expended for activities that benefit such persons.

4. The grantee will not attempt to recover any capital costs of public improvements assisted with CDBG disaster recovery grant funds, by assessing any amount against properties owned and occupied by persons of low and moderate-income, including any fee charged or assessment made as a condition of obtaining access to such public improvements, unless: (A) Disaster recovery grant funds are used to pay the proportion of such fee or assessment that relates to the capital costs of such public improvements that are financed from revenue sources other than under this title; or (B) for purposes of assessing any amount against properties owned and occupied by persons of moderate income, the grantee certifies to the Secretary that it lacks sufficient CDBG funds (in any form) to comply with the requirements of clause (A).

J. **Civil Rights** – The grantee certifies that the grant will be conducted and administered in conformity with title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d) and the Fair Housing Act (42 U.S.C. 3601–3619) and implementing regulations.

K. **Excessive Force** – The grantee certifies that it has adopted and is enforcing the following policies:
   1. A policy prohibiting the use of excessive force by law enforcement agencies within its jurisdiction against any individuals engaged in nonviolent civil rights demonstrations; and
   2. A policy of enforcing applicable State and local laws against physically barring entrance to or exit from a facility or location that is the subject of such nonviolent civil rights demonstrations within its jurisdiction.

L. **Capacity** – Each unit of local government receiving a direct award under this Notice certifies that it (and any subrecipient or administering entity) has the capacity to carry out disaster recovery activities in a timely manner; or the State or unit of local government will develop a plan to increase capacity where such capacity is lacking.

M. **Special Flood Hazard Area** – The grantee certifies that it will not use CDBG disaster

Disaster Recovery Round I Amendment #5 – July 20, 2015

2
recovery funds for any activity in an area delineated as a special flood hazard area in FEMA’s most current flood advisory maps, unless it also ensures that the action is designed or modified to minimize harm to or within the floodplain, in accordance with Executive Order 11988 and 24 CFR part 55. The relevant data source for this provision is the latest issued FEMA data or guidance, which includes advisory data (such as Advisory Base Flood Elevations) or preliminary and final Flood Insurance Rate Maps.

N. Lead-based Paint -- The grantee certifies that its activities concerning lead-based paint will comply with the requirements of 24 CFR part 35, subparts A, B, J, K, and R.

O. Applicable Laws -- The grantee certifies that it will comply with applicable laws.

P. Financial Controls -- The grantee certifies that it has reviewed the requirements of this Notice and requirements of Public Law 113-2 applicable to funds allocated by this Notice, and that it has in place proficient financial controls and procurement processes and has established adequate procedures to prevent any duplication of benefits as defined by section 312 of the Stafford Act, to ensure timely expenditure of funds, to maintain comprehensive websites regarding all disaster recovery activities assisted with these funds, and to detect and prevent waste, fraud, and abuse of funds.
